

# IUF – International Uranian Fellowship

IUF7 Conference – May 25, 2014

Uranian Astrology in Istanbul:

The Bridge between Europe & the Classical Near East

## Conference Program

09:00	Registration
09:30-09:45	Opening - Welcome
09:45-10:15	Guest speaker - Baris Ilhan
10:15-10:30	Opening on behalf of IUF by Meira B. Epstein
10:40-11:30	Liane Thomas Wade, <i>Introduction to the 90 Degree Dial</i>
11:40-12:30	Neslihan Ayanoglu, <i>The TNP's</i>
12:30-13:30	Lunch (1 hour)
13:30-14:20	Michael Feist, <i>Planetary Pictures – the Mathematical-symmetrical Principle of Uranian Astrology</i>
14:40-15:30	Meira B. Epstein. C.A., NCGR-PAA, <i>Many Astrologies - One Person, A Look at Relationships Using Ancient &amp; Modern Techniques</i>
15:50-16:40	Dr. Winai Ouypornprasert: <i>The 360 degree Dial, Composite Charts and Uranian Planetary Pictures</i>
17:00-17:50	Faith McInerney, <i>Chiron and the TNP's</i>
17:50-18:00	Closing
19:00	Dinner

## Conference Location:

Hotel Divan Istanbul City, Buyukdere Caddesi No:84 Gayrettepe 34398 Istanbul

Conference Contact: Neslihan Ayanoglu [iuf7@yahoo.com](mailto:iuf7@yahoo.com)

## **Translation**

All lectures will be projected in both languages, Turkish and English.  
A stand-by translator will be present to facilitate Q & A.

## **Trade Room**

A trade room will be organized for attendees, books and other relevant material, such as software or unique art for sale or just display.

## **Dinner after Conference**

A dinner is organized after conference; Turkish meal, both fish and meat options.

## **A Special Program after Conference: Two-days Tour in Istanbul**

We will follow the astrological signs in the historic part of Istanbul.

Archaeological Museum, Topkapı Palace, St. Sophia Museum, The Blue Mosque, Chora Museum, Suleymaniye Mosque, Tour in Bosphorus, Spice Bazaar, Grand Bazaar.

Included: Guided Tour, Transportation, Museum Entrance Fee,

Excluded: Lunch

It will be organized with minimum 12 persons.

## **The Cost of the Program**

### **Conference / Full Day** (including all materials)

Until 30.4.2014: TRL 250 / Euro 90

After 1.5.2014: TRL 275 / Euro 100

**Dinner** Euro 50

**Two-days Istanbul Tour** Euro 100

## **HOTEL (two alternatives, both close to each other)**

### **Divan Istanbul City**

Address: Buyukdere Caddesi No:84 Gayrettepe 34398 İstanbul

Rates: Single: Euro 125, Double: Euro 145. included breakfast and excluded VAT (8%)

<http://www.divan.com.tr/eng/Hotel-Destinations/Divan-Istanbul-City/>

### **Hotel La Villa Blanche**

Address: Kesinkalem Sok. 7, Esentepe, 80300 Istanbul, Turkey

Rates: Single: TRL 195, Double: TRL 215. VAT and breakfast are included

<http://www.hotelvillablanc.com/>

Divan is bigger and new. It is a brand.

Villa Blanche is old, small and a boutique hotel, nice, clean and cheap. A family has been running the hotel.

It is next to a big and luxury shopping center. Free WiFi.

The two locations are close to each other – 9 minutes walk.

**BARIS ILHAN**  
**KEY NOTE SPEAKER**

**BIO:** Baris Ilhan was born in Ankara in 1956, graduated from Middle East Technical University, and worked as a city planner for 15 years. She has been a professional astrologer since 1993. In 1997, she founded her publishing house to publish astrology and psychology books. Through today, she has published 21 books. She is the author of two books: "The Puberty Age of Adults: Planetary Cycles", which deals the planetary cycles and astrological crisis times; and "Astrology Lessons", which is mainly a text book for her students. Baris is the founder of an astrology school called "Ilhan Astrology Institute," which also has a correspondence program to teach students from all over Anatolia and Cyprus. She teaches and lectures regularly, and from time to time writes astrology articles for a daily Turkish newspaper. Besides these activities, she organizes conferences and workshops, and invites foreign speakers to Turkey. In 2003 she formed the NCGR-Turkey chapter (of which she is the president) and started giving certification tests in Turkey. More information can be obtained at the website [www.ncgr-turkey.com](http://www.ncgr-turkey.com). She is a member of NCGR, ISAR, AFA and AA, and a member of the Advisory Board of NCGR. Her research on the astrology of the Ottoman Empire can be found at [academia.edu](http://academia.edu).

**Liane Thomas Wade, (New York City) "Introduction to the 90 Degree Dial"**

**ABSTRACT:** Uranian astrologer, Liane Thomas Wade, will demonstrate how the 90 degree dial works wonders in interpreting additional and exact meanings of the chart. Bring your own chart so that you can really see how clearly the technique works. You will be supplied with your own copy of the dial as well as a second dial to spin around. In a short amount of time, we will cover much information which the Uranian System makes easy.

**BIO:** Liane Thomas Wade has been studying astrology for over 25 years. She has been president of The Uranian Society (a Special Interest Group of the NCGR) since 2004. She has lectured often, usually on Uranian methods. A highlight of her study was the day she was introduced to the Uranian System. She lives on Roosevelt Island in New York City with her adult granddaughter.

**Neslihan Ayanoğlu, (Istanbul) "The TNP's"**

**ABSTRACT:** Hypothetical or Trans Neptunian Planets is the new topic in astrology world which was developed by Alfred Witte and Friedrich Sieggnum under Uranian Astrology Studies. We will learn the details about eight Trans Neptunian Planets, Cupido, Hades, Zeus, Kronos, Apollon, Admetos, Vulcanos and Poseidon. Their discovery process, mythologies, meaning in the chart will be analysed.

**BIO:** She has BSc in Math and MA in Insurance. After 22 years in insurance industry she is working as part-time consultant and give lectures in University about insurance, pension system, risk management. She has been studying astrology since 2002 and studying on certification of NCGR. She is student in MA Cultural Astronomy and Astrology Program of Wales University.

**Michael Feist, (Hamburg) “Planetary Pictures, the mathematical-symmetrical principle of Uranian Astrology”**

**ABSTRACT:** Uranian Astrology works with Planetary Pictures instead of traditional aspects. Nevertheless, it is not always taken into account that aspects (and ancient sensitive points) are the basic idea behind Planetary Pictures. An aspect is in other words an angle of arc – we call it “difference” in Uranian Astrology. Two equal “differences” for instance are a mathematical symmetry and a Planetary Picture. Result: The Planetary Picture  $a-b = c-d$  means: two equal differences, two equal angles of arc and it means two equal aspects. From this principle idea in Uranian Astrology other calculations of Planetary Pictures are deduced. The work with “half-sums” (midpoints) for instance is the usual optical work with an astrological dial. “Sums” are the easy way of a calculation proof, what we have found optical before. “Differences” are one basics for the prediction with the Solar Arc (and a help for partnership comparison). “Sensitive Points” – already known in ancient times – are multi talent e.g. for mundane calculations.

**BIO:** Michael R. Feist, Hamburg, Germany, is grandson of Alfred Witte's collaborator and publisher Ludwig Rudolph and one of seven family members who were educated in Witte's Uranian Astrology. Michael's family has practiced astrology since 100 years. After Ludwig Rudolph has passed away, 1982, Michael's personal astrological teachers were Ludwig Rudolph's widow Emma and his son Udo. During Michael's studies of computer science (with a focus on human medicine), he established his own publishing with the main focus on software and coaching of astrologers in technical astrological issues. Michael's main emphasis is his study of the astrological and historical development of the Uranian System of Astrology. Since the early 1990's, Michael has been Editor of the Uranian Journal "Hamburger Hefte" (est. 1960) and in 2005 he became owner of the Witte Publishing House (est. 1927). He is one of seven IUF-Cofounders and sponsor of the IUF-Website.

**Meira B. Epstein. C.A., NCGR-PAA, (New York City) “Many Astrologies – One Person: A Look at Relationships - Ancient & Modern”**

**ABSTRACT:** The key for getting maximum value out of the Uranian System is Integration with Traditional Astrology. These enhance each other and provide a deeper insight into astrology in general. For the practicing astrologer - combining the Best from both Worlds - Old & New – Classical Hellenistic & Uranian – contributes to a better understanding of the chart, and a more accurate reading too. In this lecture we will demonstrate the Uranian & Classical Techniques in patterns of love, its timing and endurance.

**BIO:** Meira is a professional certified astrologer, a teacher on the New York NCGR faculty, and a speaker at national and international conferences. Meira teaches astrology on all levels, with specialties in Astronomy-for-Astrologers, Chart Calculations, and preparing students for all levels of the NCGR-PAA Certification Program. Developed an online-study curriculum, currently teaching online for the NCGR. Additional specialties: Hellenistic & Medieval Techniques and the Uranian System. PUBLICATIONS included the translations of the medieval astrological works of Rabbi Abraham Ibn Ezra from Hebrew into English, as well as many articles published in the US, England and Europe. Her new publication, “EXCELLENCE IN ASTROLOGY” is a series of instruction/study books that are intended as a companion for the NCGR-PAA exams, or for self-study. Meira also provides audio-visual online classes, and many of her audio-visual lectures, as well as her books, are available from <http://bear-star.com> Her previous extended parallel career was in computers systems as a programmer-analyst for a Wall St. bank, and a prior career in teaching ESL in Israel.

	<p><b>Dr. Winai Ouypornprasert (Thailand): “The 360° Dial, Composite Charts and Uranian Planetary Pictures”</b></p> <p><b>ABSTRACT:</b> The use of Witte’s movable 360° dial will be reviewed. The concept of three techniques of constructing composite charts, i.e. two nearest midpoint techniques and the Davidson’s technique, will be discussed and the erection of these charts will be demonstrated. Then the Uranian planetary pictures will be restated and proposed. Some efficient tools for relationship analyses will be introduced. The relationship of a few couples will be analysed. Finally the critical summary will be drawn.</p> <p><b>BIO:</b> Winai Ouypornprasert, Dr. techn. (Civil Engineering) is a life-time NCGR member. He began studying Uranian Astrology in 1989. Since 1993 he has educated over 1,000 students of the Uranian System. He is also the founder of NCGR Thailand Chapter and the Uranian Astrologers Club, Thailand as well as the Rasamichan Publishing House. His astrological books are popular among Uranian Astrologers in Thailand e.g. Unforgettable Experiences on Predictions, Conversations with an Astrological Language and Basic Uranian Astrology.</p>
	<p><b>Faith McInerney, (New York City) “Chiron and the TNP's”</b></p> <p><b>ABSTRACT:</b> New, illustrated findings on delineations for Chiron combined with TNP's will broaden the range of normal and special events which can be identified in natal charts and with predictive techniques.</p> <p><b>BIO:</b> Faith McInerney has read thousands of horoscopes during her 30 year career. Her speciality is concrete astrology, working with the Uranian System to identify life-events, potentials and timing, using midpoints and harmonics. She has a BA in American History and Literature and hosted a local astrology TV show for 17 years.</p>
